

AAPM&R 2026 Physician Compensation Survey – Preparation Checklist

The AAPM&R Physician Compensation Survey was created to collect and report market compensation and production benchmarks for physiatrists for the 12 months ending December 31, 2025. This detailed survey is expected to take physiatrists between 20 and 30 minutes to fully complete. To ensure you are prepared to take the survey and to decrease any possible delays in completing the survey, we recommend that you consider the following checklist of information the survey asks for. Having the following information readily available will ensure a smoother survey process*.

Biographic/Demographic Information

- Residency end year
- Fellowship information
- Board certification information

Practice Information

- Clinical areas of focus
- Settings in which you practice
- Procedures you provide
- Information about call coverage

Benefits

- Health insurance, dental, vision
- Retirement package
- Professional compensation (CME, certification/licensing, professional dues)
- Malpractice
- Time off

Compensation Information

- FTE Status
- Breakdown of annual net earnings (base compensation, clinical compensation, administrative stipends, etc)
- Professional collections
- Work RVUs

****This information isn't entirely comprehensive but reflects much of the information you'll need to complete the survey.***
