

AAPM&R's Registry by the Numbers

AAPM&R's Registry collects high-quality, clinician and patient data across independent physician practices and larger institutions for use in generating insights to inform best practices, guide pioneering research and improve patient care. Currently, the Registry has two programs centered on ischemic stroke and low back pain, two critical areas that most physiatrists treat. The Registry will expand data collection efforts to other clinical areas in the future.

Throughout 2022 and the first quarter of 2023, AAPM&R's Registry team, its participants and volunteers have been hard at work on this important physiatric data collection effort. The numbers speak for themselves...

<p>Number of data collection areas</p> <p>2</p> <p>Ischemic Stroke and Low Back Pain</p>	<p>Number of data elements we collect from the EMR</p> <p>92</p>	<p>Number of Patient-Reported Surveys Completed*</p> <p>844</p>
--	--	---

<p>Number of Patient-Reported Outcome Surveys</p> <p>ISCHEMIC STROKE</p> <p>4 PATIENT SURVEYS</p> <p>Baseline, 30-day, 60-day, 90-day</p>	<p>LOW BACK PAIN</p> <p>5 PATIENT SURVEYS</p> <p>Baseline, 6-week, 3-month, 6-month, 12-month</p>

NATIONAL GRAND ROUNDS

AAPM&R's free webinar series connects physiatrists of all specializations, from across the country, for stimulating discourse on topics that represent the intellectual, practical and/or spiritual aspects of the specialty. This monthly forum will include presentations of broad or in-depth focus that bring together physiatrists via a virtual platform.

Upcoming webinars include:

- April 12**—Spine Imaging Interpretation for the PM&R Spine Specialist
- May 10**—The Science of Teaching: Principles of Modern Learning
- June 14**—How to Plan for Retirement: A Ten-Year View of When to Start Thinking About Retirement
