

AAPM&R'S VIRTUAL MEDICAL DIRECTORSHIP CERTIFICATE PROGRAM

AAPM&R is empowering and training psychiatrists to excel in leadership roles in the new healthcare landscape. Enhance your knowledge, strengthen your skills and position yourself as a trusted leader in PM&R with this new certificate program.

Three live virtual discussions with PM&R experts, complemented with engaging online lectures cover key topical areas including: leading change, understanding roles and governing structures, organizational behavior, utilization management and strategies for success.

Upon successful completion of this program, participants will:

- ✓ Gain a deeper understanding of the regulatory environment surrounding different levels of in-patient rehabilitation, such as IRF, SNF and LTACH.
- ✓ Acquire the ability to strategically plan for financially feasible service delivery within their chosen level of rehabilitation.
- ✓ Develop the skills necessary for successfully leading teams in post-acute settings, incorporating management principles for effective problem-solving, and spearheading quality improvement projects tailored to specific settings.
- ✓ Obtain valuable insights into current CMS policies that dictate admission criteria for IRF, SNF and LTACH.
