Maintenance of Certification® (MOC®)

Maintenance of Certification® (MOC®) was developed by the American Board of Medical Specialties (ABMS) to improve patient care by ensuring continuous lifelong learning and professional development throughout a physician’s medical career. For board-certified physiatrists, the American Board of Physical Medicine and Rehabilitation (ABPMR) sets MOC requirements that are customized to the specialty and ensures compliance with ABMS Standards.

Recognizing that physicians participating in the certification process want a variety of options to meet these requirements, **AAPM&R** has developed resources that satisfy the different components of MOC. All Academy tools available to help you meet MOC requirements can be found on **mē**®.

The 4 components to the MOC program and ABPMR’s requirements for each are as follows:

Part I: Professional Standing and Licensure

Hold a current, valid, and unrestricted license to practice medicine.

MOC|2

Note:
mē® resources
offering credits
are noted
throughout this
resource guide.

Part II: Self-Assessment and Lifelong Learning

Diplomates with time-limited certificates issued before 2012 must complete 4 ABPMR-approved self-assessments during their 10-year cycle and complete 300 *AMA PRA Category 1 Credits*™.

Diplomates with time-limited certificates issued in 2012 or later must complete an average of 8 *AMA PRA Category 1 Credits*™ from ABPMR-approved self-assessments each year during their 10-year MOC cycle (averaged over 5 years) and complete 150 *AMA PRA Category 1 Credits*™ in years 1-5 and 150 *AMA PRA Category 1 Credits*™ in years 6-10.

MOC|3

Part III: Cognitive Expertise

Diplomates must successfully complete the ABPMR Primary or Subspecialty MOC Examinations in years 7-10 of their MOC cycle.

MOC|4

Part IV: Practice Performance Assessment

Diplomates with time-limited certificates issued before 2012 must complete 1 ABPMR-approved Practice Improvement Project (PIP) during their 10-year cycle. Diplomates with time-limited certificates issued in 2012 or later must complete 2 ABPMR-approved PIPs during their 10-year cycle—1 in years 1-5 and 1 in years 6-10.

MOC|2 SAE-Ps

Part II: Self-Assessment Resources

The Self-Assessment Exam for Practitioners (SAE-P) is an online, interactive tool that helps you identify your knowledge gaps and provides feedback with explanation and references for each question, upon completion. The number of questions in an SAE-P range from 20 to 40 and are available on a wide variety of topics.

RESOURCE NAME	FORMAT	CME CREDITS*	MEMBER PRICE	NONMEMBER PRICE
2018 SAE-P: Introduction to Musculoskeletal Ultrasound	MOC 2	8	\$115	\$165

MOC|3 Online Mock Examination**

The Online Mock Examination features 800+ questions to help psychiatrists prepare for the ABPMR MOC Examination. The study questions cover 12 PM&R topics and provide immediate feedback with answers, comprehensive commentary, and references.

MOC|3 Online Review Courses**

Review topics covered on the ABPMR MOC Examination with AAPM&R's MOC|3 Online Review Courses. Slide presentations are accompanied by a detailed lecture on the topic from an expert within that area. You may take as much time as you wish to review the information presented. All MOC|3 Online Review Courses offer CME credit.

PIPs are worth up to 20 CME credits and are **FREE** for AAPM&R members!

MOC|4 PIPs

Part IV: Practice Performance Resources

The self-guided Practice Improvement Project (PIP) allows you to assess your knowledge and current implementation of evidence-based treatments in your practice through a systematic chart review, leading to identifying areas for improvement and implementing an improvement plan.

All AAPM&R PIPs have been approved by the ABPMR to meet MOC requirements and AAPM&R will automatically report the completion of a PIP to the ABPMR. Plus, all PIPs offer 20 CME upon completion!

Note: It takes a minimum of 5 weeks to complete a PIP.

Resident Resources

As the primary medical society for PM&R, the Academy is dedicated to serving the needs of physiatrists from day 1 of their careers. Resident physiatrists are the future of PM&R and we have created the following resources to not only assist with certification, but help residents thrive as they pursue excellence in physiatry.

To access **Resident Resources** on me.aapmr.org, click ▾ **More** under **Member Councils**, then click **Residents**.

STEP Ultrasound Certificate Program

STEP stands for Skills, Training, Evaluation, and Performance, and is a comprehensive educational program that offers extensive hands-on training, an online curriculum and post-test, and a one-on-one hands-on skills assessment. The program was designed *by* and *for* physiatrists, covering both musculoskeletal and neurologic applications of ultrasound.

What is a Certificate Program and Why is it so Important?

AAPM&R's STEP Ultrasound Certificate Program is focused on providing comprehensive competency-based training in specific skills; it is not a "certification" that is designed only to test knowledge. Participants move through a series of 3 steps, completing various program components to earn a Certificate of Completion.

Successful completion of this high-level, standardized program will build your confidence while clearly demonstrating to your patients, fellow health care professionals, employers, and the medical facilities you work with that you are a competent professional, expertly trained in the field of Ultrasound.

CME and MOC Credit

The STEP program offers up to 56 *AMA PRA Category 1 Credits*™.

- Fundamentals Course offers 17.75 *AMA PRA Category 1 Credits*™
- Interventional Course offers 16.25 *AMA PRA Category 1 Credits*™
- Online Curriculum offers 22 *AMA PRA Category 1 Credits*™

In addition, this program offers up to 34 Maintenance of Certification (MOC®) Part II Self-Assessment credits through the hands-on courses and online curriculum.

Visit www.aapmr.org/step to learn more and register for this exciting opportunity!

Use this members-only service to stay organized and manage your CME history. This tab allows you to enter and add *AMA PRA Category 1 Credits*™ earned from other organizations to your transcript—making **mē**® your personal CME repository. AAPM&R automatically transfers CME activity data on a weekly basis, including non-AAPM&R credits entered, to the ABPMR. Just click [Add CME Activity](#) to get started.
