

Use of Telehealth/Telemedicine Under the COVID-19 Pandemic Guide to Links in Cindy Moon's Presentation (recording on mē® site)

Links on Slide 4 – Coverage of Telehealth

- Medicare Telehealth Services List
- See <u>this link</u> for more information on standard Medicare telehealth coverage policies under nonemergency conditions.

Links on Slide 5 - New Medicare Telehealth Flexibilities for COVID-19

- On March 17, CMS announced it was waiving geographic and place of service restrictions for use
 of telehealth under Medicare. See the <u>press release</u>, <u>fact sheet</u>, and <u>FAQs</u>. (changes effective
 March 6)
- On March 30, CMS issued an <u>Interim Final Rule with Comment Period</u> ("March 30 IFC") providing additional flexibility for use of telehealth and other services using communications technology.
 See the <u>press release</u>, <u>fact sheet</u>, and <u>fact sheet outlining telehealth and other flexibilities for <u>physicians and other clinicians</u>. (changes effective March 1)
 </u>

CMS COVID-19 Medicare Provider Enrollment Relief <u>Frequently Asked Questions</u> (question 11 referenced)

Links on Slide 8 – Licensure to Provide Telehealth Across State Lines

- The Federation of State Medical Boards (FSMB) has posted the following resources:
 - A <u>chart</u> identifying states' policies regarding licensure requirements and renewals in response to COVID-19.
 - A <u>chart</u> identifying states waiving in-state licensing requirements for telehealth.
 - A <u>chart</u> identifying steps states are taking to expedite licensure for inactive or retired licenses in response to COVID-19.
- To address licensing issues that have long existed, the <u>Interstate Medical Licensure Compact</u> (IMLC) allows for a voluntary expedited pathway to licensure across multiple states.

Links on Slide 9 – Additional Federal Flexibilities for COVID-19 (non-CMS)

- The HHS OIG <u>announced</u> that it will not enforce requirements to collect cost-sharing for telehealth visits. Providers may reduce or waive cost-sharing. (Additional guidance <u>here</u>.)
- The HHS Office of Civil Rights <u>announced</u> enforcement discretion related to HIPAA requirements in connection with the good faith provision of telehealth during the COVID-19 emergency.
 - Everyday communications technologies like FaceTime or Skype will be allowed, but "public facing" platforms such as Facebook Live, Twitch, and TikTok will not. (see FAQs)
 - Does not apply to the confidentiality of substance use disorder records, given that SAMHSA has issued its own separate enforcement discretion.

- The Drug Enforcement Agency (DEA) also <u>announced</u> that DEA-registered practitioners may use telehealth during the public health emergency to issue prescriptions for controlled substances
- On March 25, the DEA granted an <u>exception</u> to the requirement that a DEA registrant must be registered in each state in which the practitioner dispenses controlled substances
- On March 27, the DEA announced <u>exceptions</u> to requirements regarding paper delivery of a prescription of an emergency oral prescription.
- On March 31, 2020, the DEA <u>announced</u> that it is providing flexibility to provide buprenorphine to new and existing patients with OUD via telephone
